Introduction

CAST BRONZE BUSHING CUSTOM BRONZE BUSHING

One of China leading suppliers of slide bearings,
plain bearings and bronze bushings. World class
logistics!

Oil & Grease Groove Bronze Bushings

Oil & Grease Grooving
Solid turned bronze bushing, heavy-
maintenance

CUSTOM BRONZE BUSHING SOLUTIONS GROOVE TYPE

AVAILABILITY

Bearing forms available in standard dimensions

Cylindrical bushes

Flanged bushes

Thrust washer

Flanged washers

Sliding plates

BRONZE BUSHINGS SLIDING BEARINGS

PROPERTIES

Suitable for applications in contaminated
environment, good corrosion resistance.

CUSTOM BRONZE BUSHINGS SOLID TURNED BRONZE BUSHING

MATERIAL

Standard material CuSn12

Additional Alloys: CuSn7ZnPb (RG7), CuSn10,
CuSn12, CuPb10Sn, CuPb15Sn, CuAl10Ni, CuSn10Zn
(RG10), CuZn25Al5, CuSn5ZnPb (RG 5)

Custom Quality Cast, Bushing, & Self-lubricating Bearings VIPLUS is a leading supplier of quality bronze bearings, has one of the world's largest inventories of bronze bearings in a wide variety of inch and metric sizes. We offer a broad range of bearing types, from sleeve and flange to disc, plate and thrust, solid and cored bar in sintered, cast bronze and steel back-PTFE-lined materials. Our bearings can be oil impregnated, dry or graphite-filled to meet a broad range of application requirements.

BRONZE BUSHINGS WITH LUBRICATION GROOVES

RANGE OF APPLICATION

TURNED BRONZE BEARINGS WITH LUBRICATION GROOVES.

CNC BRONZE BUSHING

Mining equipment, crane manufacturing, marine and offshore industry, hydraulic cylinders, construction equipment, vehicle manufacturing Forest machinery, pump housing parts, cylinder bearings, shipping & container industry etc.

MADE -TO-ORDER
GROOVE TYPE

The Premier Source for Bronze Bushings Online

CHARACTERISTICS

Bearing material made of solid bronze strip with indents for lubrication
Good wear resistance, suitable for rough conditions
Optimum performance under relatively high loads and low speeds

MADE IN CHINA
